~Isaiah Deppong

- **Weekly Sync Time:** Fridays @ 3:00 PM
- **GitHub Repository Link:** <https://github.com/bmelling-stack/Data-Mining>

3. Workflow Documentation

- **KNIME Workflow Overview:** We read in the .csv and plot the housing median value to a histogram, and a boxplot for every attribute.
- **Key Annotations:** *Histogram, and Box plot nodes, as well as the annotation above them.*
- **Known Limitations:** *None for this week.*

4. Group Agreement & Attestation

By signing below, all team members confirm that the work contained within this repository is the result of a collaborative effort and that all individual contributions are fairly represented in the log above.

- **Member 1 (Name):** Isaiah Deppong **Date:** 03/28/26
- **Member 2 (Name):** Brian Mellinger **Date:** 03/28/26
- **Member 3 (Name):** Rachel Roberts **Date:** 03/28/26
